For: Motion Estimator Architecture For Low Bit Rate Image Communication

PETITION FOR REVIVAL OF AN APPLICATION
FOR PATENT ABANDONED UNINTENTIONALLY UNDER
37 C.F.R. § 1.137(b)

Honorable Commissioner For Patents
P.O. Box 1450
Alexandria, VA. 22313-1450

Sir:

Applicant respectfully requests revival of the above-identified application pursuant to 37 CFR §1.137(b).

The application became abandoned on March 10, 2004, for failure to pay the issue fee set forth in the Notice of Allowance dated December 10, 2003. A Notice of Abandonment was mailed on April 29, 2004.

The abandonment of the application for failure to prosecute was an unintentional delay. The entire delay in filing the required reply from the due date until the filing of this petition was unintentional.

The delay occurred because the Applicant sent a remittance for payment of the issue fee which was received on March 15, 2004, five days after the due date for payment, but did not realize that the application had become abandoned until some time after May 30, 2008.

The Applicant was informed that the application had become abandoned in a letter to Applicant's Korean representative dated March 23, 2004. However, the Applicant failed

02 FC:2453

770.00 0P

Serial Number 09/657,573

to associate the letter with the application or respond to the letter. Instead, the Applicant continued to believe that the issue fee had been timely paid.

The reason for the confusion is that the office manager for the undersigned acknowledged receipt of the remittance by adding a receipt stamp to the original remittance letter, signing the receipt "J Rappe," and returning the stamped copy of the remittance letter to Applicant's Korean representative. This led the Applicant's Korean representative to believe that the remittance had been applied to the issue fee, even though that was not the case because of the late receipt of the remittance and instruction letter.

In a letter dated April 30, 2008 (Exhibit A), the Applicant inquired about the status of the application. The April 30, 2008 letter included a copy of the original remittance letter, in which the receipt stamp signed by J. Rappe was circled (Exhibit B). Applicant's representative wrote: "Please inform the status of the above-identified application as soon as possible. We have not the patent number and patent letters. We cannot find the patent number at PAIR of USPTO. Please find attached the remittance letter."

The Applicant was then sent a letter dated May 30, 2008, pointing out the application had in fact become abandoned for failure to pay the issue fee, despite the acknowledgment of the remittance, in view of the failure to respond to the March 23, 2004 letter informing the Applicant of the abandonment. After Applicant's Korean representative informed the Applicant of the need to revive the application, instructions to revive the application were sent on July 23, 2008.

At no time did the Applicant or Applicant's representatives intend to abandon the application. Instead, the delay in reviving the application was due to the mistaken belief on the part of the Applicant and Applicant's Korean representative that the issue fee had in fact been paid. On the other hand, Applicant's U.S. representative failed to revive the application due to a lack of instructions on the part of Applicant's Korean representative, which lack of

Serial Number 09/657,573

instructions resulted from the Applicant's belief that the issue fee had in fact been taken care and that no further instructions were necessary.

The required reply, in the form of payment of the issue fee and submission of a completed form PTOL-85, is attached.

The application status is small entity. Enclosed is a check for the petition fee of \$770.00 and the issue fee of \$720.

Respectfully submitted,

BACON & THOMAS, PLLC
